

ECS 2023 in Nuremberg is coming soon!

Dear customer,

We are so excited to meet you again in Nuremberg since the last show in 2019!

Please find hereby some highlights for your visit to our exhibition booth.

We have now two grades of Pigment Yellow 138:

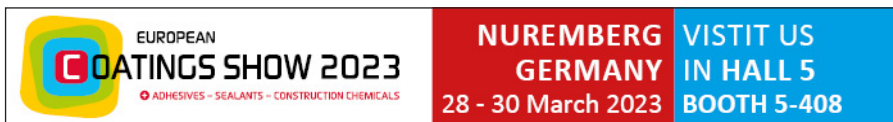

- **IQC COAT YELLOW 138** versus the Yellow L0962 HD
- **IQC PLAST YELLOW 138** versus the Yellow K0961

We have also improved our phthalocyanines offering:

- **Pigment Green 7**: following the new EU regulation dating from September 2022, we confirm to provide compliant Pigment Green 7, with a HCB content of below 10 ppm.
- **Phthalocyanine Blue 15:1, 15:3 and 15:4**: we offer a wide range of grades for different applications. Please tell us what you need.

We have also enlarged our portfolio with new grades of quinacridone **Pigment Red 122** and **Pigment Violet 23** for various applications, from solvent-based and water-based paints, but also for ink applications either liquid inks or UV inks.

We have many other organic pigments for coloring your business, so come and visit us at **ECS 2023 in Nuremberg end of March, at booth 408 in hall 5.**
